

Baptism Protocols to Keep You Safe

Your safety during this unique season is a priority to us, and to ensure the safest environment possible during baptism services at Christ Community, the following protocols will be in place ...

- Masks will be worn by all people at all times until they enter the baptistry, and will put their mask back on immediately after toweling off.
- The pastor baptizing will wear a mask at all times.
- The person handling towels/masks for those being baptized will wear a mask and gloves at all times.
- The line of people being baptized will be socially distanced at six feet at all times.
- Each person being baptized or entering the baptistry (including the pastor baptizing) will have their temperature taken in advance as they line up.
- When people return to their seat they will go directly there with the person baptizing them, if other than a pastor.
- We will be utilizing special water sanitizing chemicals and a "scum removing" product for the baptistry, assuring these products to be Covid-safety compliant and safe for our usage. We will check the chemical levels throughout the weekend.

If you have any questions about these protocols and how we will do our best to ensure that they are consistently followed, please contact Pastor Bruce Hoppe at bruceh@cccgreeley.org.
